1

Dissemination and
implementation of inclusion
and sustainability

Why?

2

Promoting awareness and the population's involvement in science, bringing researchers and civil society closer together

Why?

3

Involve the general public,
with a special focus on
schools, their students and
the older population

Why?

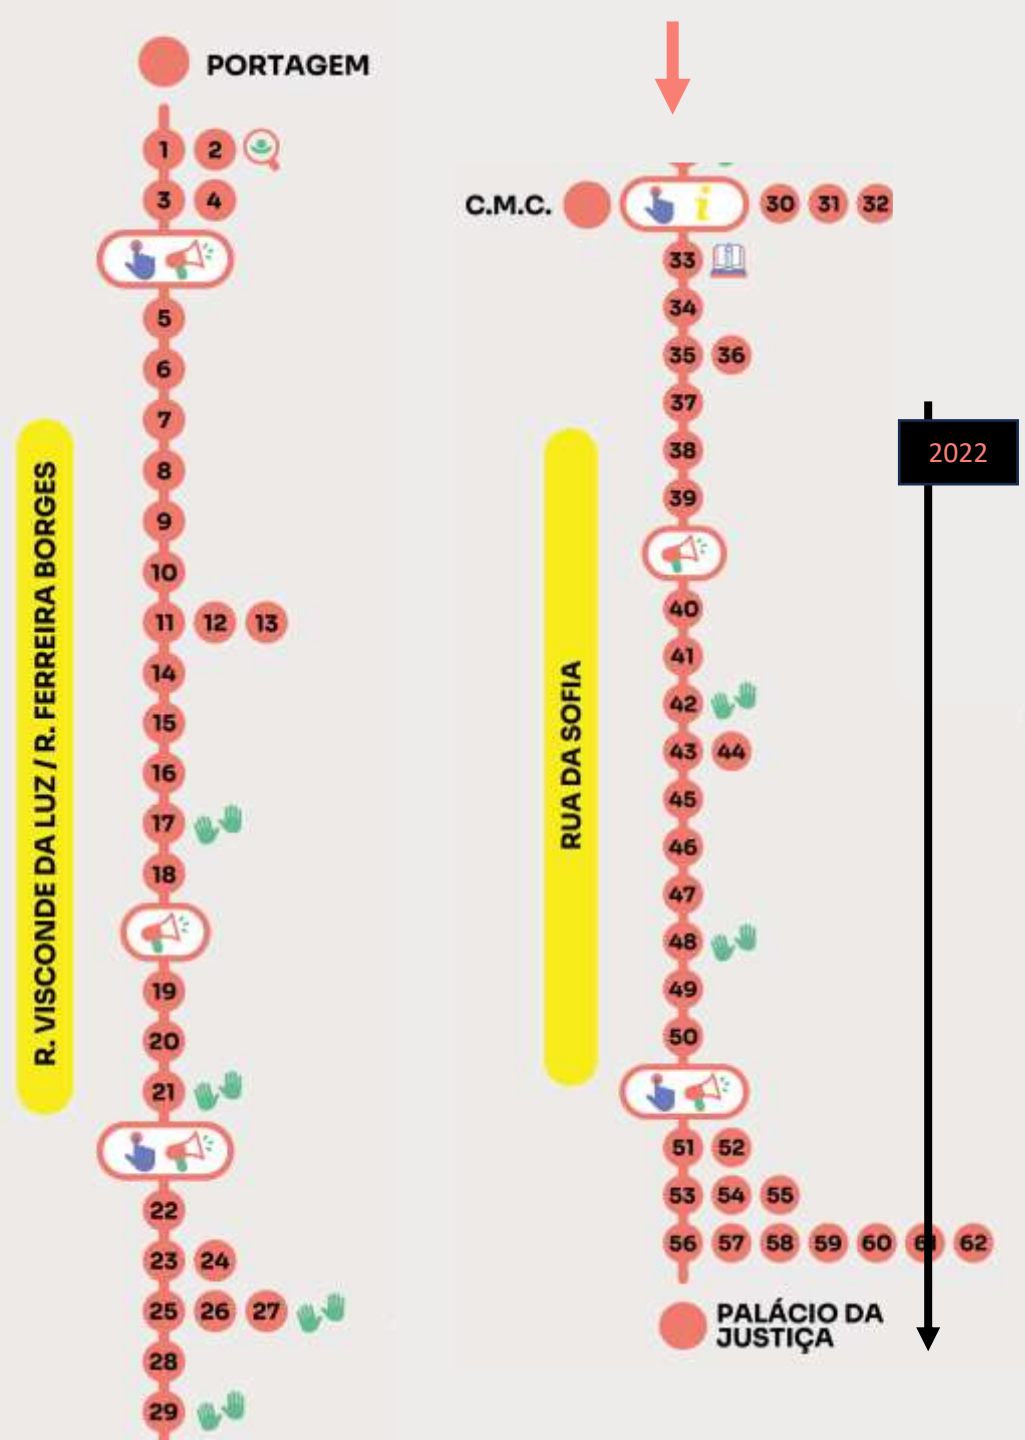

4

Collaborate to the city needs, promoting the less dynamic areas of the city

Why?

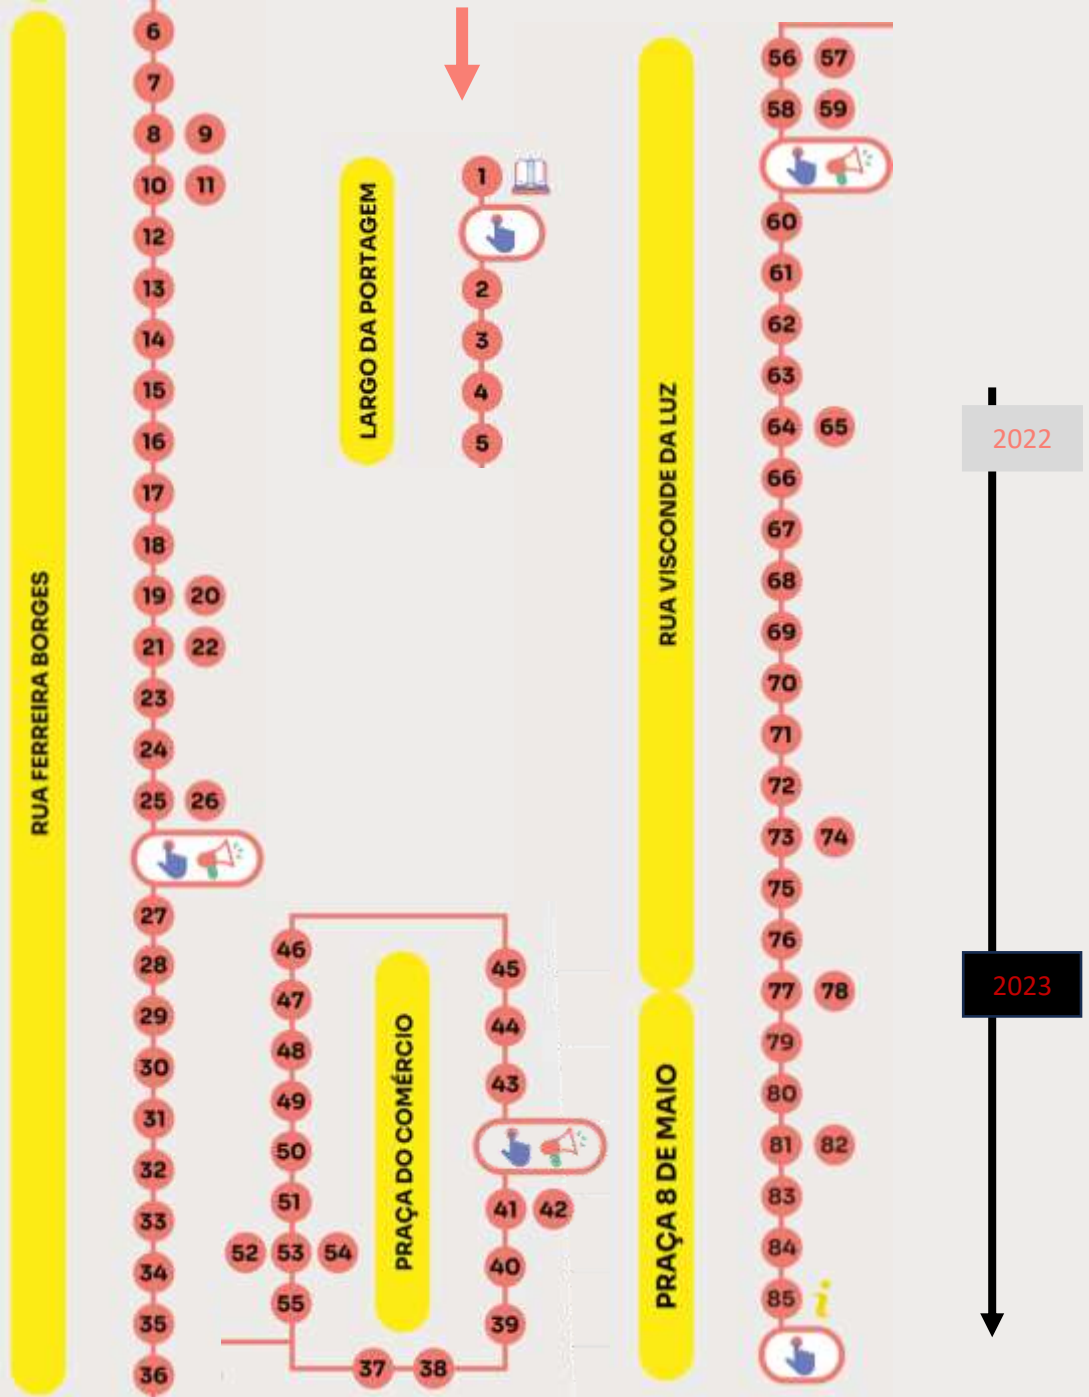

2. Place/Dimension

Strengths

- "out of university walls" - Innovative format
- Quantity and diversity of activities
- Very eye catchy
- Involvement of **different entities** and people
- **WebApp** (QR codes and awards)
- **Sustainability** (Eco-event & reuse materials)

Opportunities

- Attractive themes
- **Diversity** (activities, locations...)
- **Involvement of merchants and shopkeepers**
- Volunteers
- WebApp and Eco-event
- **Rediscovery of the city**

SWOT Analysis

Weaknesses

- Feasible route  
- Less crowded or noisy venues 
- **Less committed shopkeepers, lack of understanding of the now immediate reward**
- Accessibility (except Praça Comércio) 

Threats

- Pandemic  
- Meteorological conditions
- Other Consortium in the city
- Adherence and participation of the population

-  Partially solved in 2022
-  Totally solved in 2023

Conclusions

Create new collaborations

to achieve a goal to
innovate the European
Researchers' Night
without walls at Coimbra
