

2026 European Quality Assurance Forum

Quality assurance for skills, entrepreneurship and innovation: Partnering with the world of work

National Polytechnic University of Armenia, Yerevan
18-20 November 2026

Draft programme

This year's European Quality Assurance Forum (EQAF), entitled '**Quality assurance for skills, entrepreneurship and innovation: Partnering with the world of work**', will combine sessions about European policies and trends, research, and practical case examples related to the Forum theme and more generally about current developments in quality assurance.

EQAF provides a platform for discussion, professional development and exchange of experiences among the main stakeholders in quality assurance (QA). As such, it will be of interest to rectors and vice-rectors responsible for QA, QA managers and officers in higher education institutions, students, QA agency staff, and researchers working in higher education or the QA field.

Forum objectives

Quality assurance plays a crucial role in supporting higher education institutions in responding to evolving labour markets and strengthening their contribution to innovation and societal development. In a context marked by technological transformation, demographic change and the green and digital transitions, employment patterns are shifting rapidly.

QA systems can enhance institutional adaptability, foster meaningful stakeholder engagement and act as catalysts for innovation. By shaping frameworks and processes that promote employability, entrepreneurship, lifelong learning and research-based innovation, quality assurance helps institutions to integrate these priorities into their core missions.

EQAF 2026 will explore the dynamic relationship between quality assurance, employment and innovation. It will examine how QA frameworks and processes can support graduates in developing the knowledge, skills and competences needed to navigate rapidly evolving labour markets, while also fostering innovation and entrepreneurial mindsets across higher education.

The Forum will discuss how quality assurance can strengthen cooperation between higher education institutions and employers and ensure quality in work-based, lifelong and doctoral education linked to research and innovation ecosystems. At the same time, it will reflect on how QA can remain responsive to labour market needs without compromising academic integrity and the long-term societal mission of higher education.

Wednesday 18 November

Pre-forum meetings

12.00-14.30 Meeting for student experts in quality assurance

This is a stand-alone session organised by ESU. There is a separate registration process. You can register for this session [here](#)

15.30-16.30 Introduction to the European quality assurance framework

A pre-forum session providing an introduction to the quality assurance framework of the European Higher Education Area. Attendance is free for EQAF participants.

Forum

15.00-17.00 Registration

17.00-18.30 Opening plenary
